Notice\_content

-----  
Question #1: For fundamental frequency below 30 MHz, loop antenna shall be used for radiated emission measurement. There is no such indication that loop antenna was used in the test report. Please submit new test data, loop antenna's manufacturer, model name and calibration for fundamental emission measurement with loop antenna.

Question #2: User information contains in the last page of user manual is not correct. Only 15.21 and 15.19(a)(3) statement are required. Please modify the last page of user manual by removing 15.105 (b) statement.

Question #3: Please provide additional spectrum plot to show bandedge compliance.

Best Regards

Mike Kuo / TCB Certifier

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 60 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.
