

Model Confirmation

February 25, 2016

To whom it may concern,

We, the undersigned, hereby certify that the product, 7-20003 and the product, 7-20004 are identical in their electrical circuit design, layout and internal wiring.

The only differences between them are their color and the modulation code of their remote control units. The modulation code is determined by the difference between resistor components R2 and R6 as listed below.

Model	Modulation Code	R2	R6
7-20003	A	10Kohm	None
7-20004	B	None	10Kohm

Regards,

On behalf of: Lionel L.L.C.
