I have a few comments on this Application. Please note that further comments may arise in response to answers provided to the questions below.

1. Please note that as this is a part 15B certification as well the USB cable connection between the phone and the host should be actively carrying data to and from the host. Please note that the test report does not indicate that this was occurring. Please confirm that data was being transferred between the PC and the Phone via the USB data cable for part 15B.

A handwritten signature in black ink that reads "Dennis Ward". The signature is written in a cursive, flowing style.
