RE: FCC ID: LJPRM-198H_ATCB004000
Attention: Kare Oksanen

I have a few comments on this Application. Please note that further comments may arise in response to answers provided to the questions below.

1. Please note that DA00705 requires that band edge compliance data be taken with hopping stopped and with hopping enabled. The report appears only to show hopping stopped. Please note that hopping enabled is not necessary for out of band radiated spurious emissions however. Please provide hopping enabled data for band edge compliance.
2. FYI – this is to confirm that Short Term Confidentiality is no longer being requested.
3. I did not see calibration data on the vocoder test equipment. Please provide or please point to the page where this information is located.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
