Attention: Applications Examiner

Re: Class 2 permissive change application for a Part 27 Base Station  
Applicant: Alvarion Ltd.  
FCC ID: LKT-BMAX-BA23

To whom it may concern,

Application is hereby made for a class 2 permissive change to the referenced product. The product is now capable of operating in the C and D bands of the 2.3 GHz WCS band (2316.75MHz and 2348.25MHz for channel bandwidth of 3.5 MHz). This was made possible by a change to the software and the addition of an external band pass filter between the antenna connector and the external antennas used with this product. No changes were made to the radio hardware.

Submitted with this application are the following support exhibits:

Test report  
Filter data sheet  
User/installation manual page with filter installation details

If you have questions or need further information please contact the undersigned.

Sincerely,

T.N. Cokenias  
Agent for Alvarion Ltd.
