Attention:     Application Examiner  
                  Reviewing Engineer

RE:             Request change on Form 731 to show Composite Device

Applicant:    Alvarion Ltd.

FCC IDs: LKT-EXTR-50  
Form 731 Confirmation Number **EA373213**

To whom it may concern,

Alvarion has added a 5.8 GHz DTS capability to this radio, whose U-NII application is pending at FCC. The additional band is achieved by software change only, hardware is identical to what was tested for 5.4 GHz. The 15C DTS application is being submitted for review to a TCB.

Please change the status of the Form 731 to Composite Device. The FCC ID is of course the same, the date of TCB application submittal is 27 May 2009

If you have questions or need further information, please contact the undersigned.  
Sincerely,

THOMAS N. COKENIAS  
EMC Consultant/Agent for Alvarion Ltd.
