Re: Class 2 Permissive Change Request for Alvarion Ltd.

FCC ID: LKT-SUR-24

Hello,

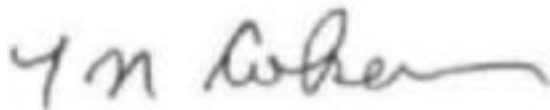

On behalf of my client Alvarion Ltd. I am submitting a permissive change request for the referenced FCC ID.

There is an alternative packaging version for the referenced product for mobile use. It will be placed in a bigger metal box with a DC to DC power supply that operates off the vehicle electrical system. A 5 dBi omni antenna will be used with the product.

No changes have been made to any of the circuit boards of the previously certified device.

I will be out of the office 30 May - 17 June. If you have questions or need further information during this time, please contact Ely Reich at ely.reich@alvarion.com. After 17 June you may contact me with your questions.

Sincerely,

THOMAS N. COKENIAS
Agent for Alvarion Ltd.
