To: **Alvarion Ltd.**

Attn: **Mr. Avner Ruta**

Subject : **Peak Excursion measurements (Test Report No.8612303651)**

Due to the fact that the measurements are made as peak search, the measured value is of a MAX (worst case result).

The Limits value states 13 dB at 1 MHz .

For example: the result shown in the Plot 131 at page 96 Test Report is better than that.

Best regards,
