

LLB09002G

The image shows a grey, cylindrical component, likely a part of a mechanical assembly. The top surface is a smooth, rounded cap. A white label with the alphanumeric code 'LLB09002G' is affixed to the side of the cylinder. The base of the component is a complex, multi-faceted structure. It features a circular flange with several small holes. Below the flange, there are several protruding elements, including a central cylindrical part and several angled, blade-like structures. The entire component is set against a plain, light-colored background.
