RE : Request for Confidentiality
Attached Form 731 – Application FCC ID: LLB10000A

Dear Sir or Madam:

Aclara RF Systems Formally Hexagram Inc. does not wish to publicly disclose certain technical information which is enclosed with this application.

This material contains critical trade secrets and we request that the Commission withhold this information from public inspection pursuant to the provisions of Section 0.457(d) and 0.459 of the Commissions Rules, and Section 552(b)(4) of the Freedom of Information Act.

MATERIAL TO BE HELD CONFIDENTIAL (LLB10000A):

File Name	Description	Pages
LLB10000A-InternalPhoto.pdf	Internal Circuit Board Photos	Six pages
LLB10000A-Schematic.pdf	Circuit Schematics	Four pages
LLB10000A-OperationDesc.pdf	Description of Operation	One page
LLB10000A-BlockDiagram.pdf	Block Diagram of the device	One page
LLB10000A-BillofMaterials.pdf	Bill of Components and Materials	Four pages

Aclara and its customers have a NDA that states (paragraph 8.1):

“BUYER agrees that SELLER’S drawings and data, processes, reports, technical data, detailed drawings, internal photographs and specifications, know how, technical information and other information furnished under this Agreement are confidential and shall be treated as confidential by BUYER and its employees, as Agents and Representatives.”

The LLB10000A device is permanently sealed. Opening the MTU cannot be performed without cutting the sealed unit, resulting in PCB fracture and dislodging of ICs along with other components. Internal photos of this device are being requested to be held confidential and the device is sealed and disassembled would destroy the product.

The above listed material is confidential and is not available to the public or end user.

Sincerely,

Siva Jambulingam
Principal Engineer
