Federal Communications Commission  
Office of Engineering and Technology  
Equipment Approval Services  
RE : Request for Confidentiality  
Attached Form 731 – Application FCC ID: LLB10001

Dear Sir or Madam:

Aclara RF Systems Formally Hexagram Inc. does not wish to publicly disclose certain technical information which is enclosed with this application.

Internal photos of this device are being requested to be held confidential and the device is sealed and disassembled would destroy the product.

This material contains critical trade secrets and we request that the Commission withhold this information from public inspection pursuant to the provisions of Section 0.457(d) and 0.459 of the Commissions Rules, and Section 552(b) (4) of the Freedom of Information Act.

MATERIAL TO BE HELD CONFIDENTIAL:

File Name	Description	Number of Pages
LLB10001_Internal_photo.pdf	Internal Photos	3
LLB10001_Schematic.pdf	Circuit Schematic	2
LLB10001_BillofMaterials.pdf	Bill of materials	4
LLB10001_BlockDiagram.pdf	Block Diagram	1
LLB100001_OperationDescription.pdf	Description of Operations	1

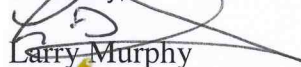

Aclara and its customers have a master Agreement that states (paragraph 13):

“BUYER agrees that SELLER’S drawings and data, processes, reports, technical data, detailed drawings, internal photographs and specifications, know how, technical information and other information furnished under this Agreement are confidential and shall be treated as confidential by BUYER and its employees, as Agents and Representatives.”

The LLB10001 device is permanently sealed. Opening the MTU cannot be performed without cutting the sealed unit, resulting in PCB fracture and dislodging of ICs along with other components.

The above listed materials are confidential and are not available to the public or end user.

Sincerely,

Larry Murphy  
Executive Director of Engineering  
440-528-7200
