RE: Application for obtaining a transmitter approval
Attached Application Form 731

FCC ID: LLB10004S

Dear Sir or Madam:

Aclara RF Systems, Former Hexagram Inc. wishes to obtain approval for a telemetry transceiver with FCC ID LLB10004S.

The LLB10004S transceiver is used to transmit data from a utility meter to a data collection unit. The LLB10004S Transceiver device is the 2-way communication device, which includes a transmitter and a receiver.

Complete information about LLB10004S device is documented in the attached application documentation including schematic, bill of material, photographs, block diagram, user manual, operation description, The LLB10004S transmitter was tested for conformance to the technical requirements of 90.201 Subpart I-General Technical Standards. Results of tests are attached to this application.

The LLB10004S was found to comply with all technical requirements of 90.210.

Sincerely,

Larry Murphy
Executive Director of Engineering
