RE : Request for Confidentiality  
Attached Form 731 – Application      FCC ID: LLB11583-2

Dear Sir or Madam:

Hexagram Inc. does not wish to publicly disclose certain technical information which is enclosed with this application.

Internal photos of this device are being requested to be held confidential. The device is sealed and disassembly would destroy the product.

This material contains critical trade secrets and we request that the Commission withhold this information from public inspection pursuant to the provisions of Section 0.457(d) and 0.459 of the Commissions Rules, and Section 552(b)(4) of the Freedom of Information Act.

**MATERIAL TO BE HELD CONFIDENTIAL (LLB11583-2):**

<u>File Name</u>	<u>Description</u>	<u>Pages</u>
LLB1158-2 Internal Photos.pdf	Internal Circuit Board Photos	Three pages
LLB11583-2 Schematic.pdf	Circuit Schematics	Two Pages
LLB11583-2 Operation Desc.pdf	Description of Operation	Two Pages
LLB11583-2 Block Diagram.pdf	Block Diagram of the device	One page
LLB11583-2 BOM.pdf	Bill of components and materials	Five pages

Aclara and its customers have a NDA that states (paragraph 13):

“BUYER agrees that SELLER’S drawings and data, processes, reports, technical data, detailed drawings, internal photographs and specifications, know how, technical information and other information furnished under this Agreement are confidential and shall be treated as confidential by BUYER and its employees, as Agents and Representatives.”

The Master Agreement between Aclara and our customers is attached (LLB11583-2 Master Agreement.pdf).

The LLB11583-2 device is permanently sealed. Opening the MTU cannot be performed without cutting the sealed unit, resulting in PCB fracture and dislodging of ICs along with other components.

The above listed material is confidential and is not available to the public or end user.

Sincerely

Larry Murphy  
Director of Engineering  
RF & Microwave Technology
