RE: Application for obtaining a transmitter approval
Attached Application Form 731

FCC ID: LLB2015002

Dear Sir or Madam:

Aclara Technologies LLC wishes to obtain approval for a telemetry transceiver with FCC ID LLB2015002.

The LLB2015002 transceiver is used to transmit data from a utility meter to a data collection unit. The LLB2015002 Transceiver device is the 2-way communication device, which includes a transmitter and a receiver.

Complete information about LLB2015002 device is documented in the attached application documentation including schematic, bill of material, photographs, block diagram, user manual, operation description, The LLB2015002 transmitter was tested for conformance to the technical requirements of 90.201 Subpart I-General Technical Standards. Results of tests are attached to this application.

The LLB2015002 was found to comply with all technical requirements of 90.210.

Sincerely,

Siva Jambulingam
Principal RF Engineer
