RE : Application for obtaining a transmitter approval
Attached Application Form 731
FCC ID: LLB8877

Dear Sir or Madam :

Hexagram Inc. wishes to obtain an approval for a telemetry transmitter with the FCC ID LLB8877. Previously, identically transmitters of Hexagram are approved by FCC. The difference is in a new application: the LLB8877 transmitter is installed within a solid-state electrical meter.

Complete information about LLB8877 device is documented in the attached circuit schematics and photographs.

The LLB8877 transmitter was tested for conformance to the technical requirements of 90.201 Subpart I-General Technical Standards. Results of tests are attached to this application. The LLB8877 was found to be in conformance with all technical requirements of 90.201.

Sincerely,

Lawrence M. Sears
Director of Technology
