RF Exposure

This calculation is based on the highest EIRP possible from the EUT considering maximum power and antenna gain.

The highest output power of the EUT is 0.885 W and the gain of the antenna is 3 dBi.

The absolute maximum duty cycle is less than 10 % in any given 6-minute period.

1 MINIMUM SEPARATION DISTANCE PER OET 65

The following information provides the minimum separation distance for the EUT, as calculated from **FCC OET 65 Appendix B, Table 1B** "Guidelines for General Population/Uncontrolled Exposure"

Transmitt er	MHz	Max Power dBm		Duty Cycle %	EIRP W	(S) GP Limit mW/cm^2	MSD	MPE Ratio from 20 cm	Notes
450-470	470	29.5	3	10.0	0.1778	0.313	0.0672	0.336	
							MDE D.C.	0.000	

Total MPE Ratio 0.336

Notes on the above table:

- a. S is the power density General Population Limit from OET 65 table 1B
- b. EIRP Power is the Max Power corrected for Antenna Gain and Duty Cycle factor
- c. MSD (Minimum Separation Distance) = (EIRP*30/(3770*S)^0.5
- d. For mobile or fixed location transmitters, minimum separation distance is 20 cm, even if calculations indicate MPE distance is less.

2 RF EVAULATION FOR RSS-102E

Since the average e.i.r.p. is 0.398 Watts and separation distance between the user and the radiating element of the device is always greater than 20 cm, it is exempt from routine SAR and RF exposure evaluations

The following information provides the calculation for section 4.2 of RSS-102 Issue 5 for the General Public.

	RF	Antenna	Duty	Eff	ective	Measurment	RF field	Exposure
Freq.	Power	Gain	Cycle	RF	power	Distance	from EUT	GP limit
MHz	dBm	dB	%	dBm	Total mW	meters	V/m	V/m rms
4	50 29.3	3	10	22.3	169.82	0.200	11.3	25.3
40	60 29.4	3	10	22.4	173.78	0.200	11.4	25.5
4	70 29.5	3	10	22.5	177.83	0.200	11.5	25.7

GP is the limit for general Public

Note on above table.

 $ERP = (V/m * dist)^2/30$

RS-102 EXEMPTIONS

		Average	Limit for Exemption	
		Transmitter EIRP	RSS-102	
Transmitter	MHz	W	Max EIRP W	Result
Business	450-470	0.178	0.852	Exempt from SAR and RF exposure

Since the average power is 0.178 Watts max, it is Exempt from SAR and RF exposure.
