Re: Actiontec Models C2000A 802.11n Router and FV2200

Dear Sir or Madam:

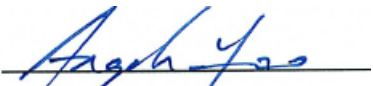

Actiontec would like to get both models 'C2000A 802.11n Router' and 'FV2200' certified for FCC and C2000A 802.11n Router is currently being tested at BAACL under Project# R1208029.

These 2 models are identical in hardware designs including Telecom and Wireless. The only difference is that VoIP and HPNA features with the associated components are removed from Model C2000A 802.11n Router to become Model FV2200 to address different market needs.

Actiontec hereby to declare that C2000A 802.11n Router and FV2200 have identical circuit designs with the same electromagnetic emissions and electromagnetic compatibility characteristics except above mentioned changes.

Please feel free to contact me if you need any further information or clarification.

Sincerely,

Angela Yao / Sr. Program Manager
