Attn. Tim Harrington

Subject: Attestation Exhibit

Correspondence Reference Number: 43724

Applicant: Futurecom Systems Group ULC.
Product: MOBEXCOM DVR Digital Vehicular Repeater
Model: MOBEXCOM DVR VHF
FCC ID: LO6-DVRSVHF

DVRS VHF, with FCC ID: LO6-DVRSVHF, was filed with the FCC in December 2012 and according to KDB Publication 579009 dated December 07, 2012, when a permissive change application is filed for 25/12.5 kHz equipment the FCC will not require the device to show compliance with the spectral efficiency standards of Section 90.203(j)(5) until they take effect on January 1, 2013.

DVRS VHF does not create data. It repeats data created by Motorola mobile and portable radios and is compliant with P25 Phase I. DVRS VHF meets 9600bps per 12.5 kHz channel. That effectively leads to 2x 4800bps per 6.25kHz.

We trust that the above attestation satisfies your requirements.

Dated This Twenty-second Day of April 2013
