**Subject: Request for withholding from public disclosure the schematic diagrams and system block diagrams pursuant to an application for certification.**

**Applicant: Futurecom Systems Group Inc.**  
**Product: MOBEXCOM**  
**Model: MOBEXCOM 800**  
**FCC ID: LO6-MBX800**

Dear Sir/Madam,

We, **Futurecom Systems Group Inc.**, would like to request that the **schematic diagrams and system block diagrams**, submitted with the application for certification be withheld from public disclosure as per Section 0.459 of FCC Rules. This request is made under the provisions of Section 0.457(d) of the Commission's Rules, and Section 552(b)(4) of the Freedom of Information Act. These sections authorize as a withholding from public inspection materials, which would be privileged as a matter of law if retained by the person submitting them, and materials which would not customarily be released to the public by that person.

The detailed confidential materials are listed as follows:

<u>No.</u>	<u>Title</u>	<u>Drawing No.</u>	<u>Sheet No.</u>
1	MOBEXCOM 800 BLOCK DIAGRAM	8D073A25	1
2	MOBEXCOM 800 PA SCHEMATICS	8D073B04	1
6	MOBEXCOM 800 Internal Pictures		

We would like to point that our MOBEXCOM vehicular repeaters are sold directly to government agencies – like Police –rather than through dealerships, therefore the access to these units is restricted to qualified users. As we would like to keep details of the component layout, and configuration of RF traces away from our competitors - having their access to the unit itself practically cut off - we would like the FCC to treat this information ( internal pictures ) as confidential - as per FCC rules mentioned above.

If you have any queries, please do not hesitate to contact us by our TOLL FREE numbers:
