CERTIFICATION OF TEST DATA

Aegis Labs, Inc. operates as both a Nevada and California Corporation with no organizational or financial relationship with any company, institution, or private individual.

Testing and engineering functions provided by Aegis Labs are furnished through the use of part-time, full-time or consulting engineers with the appropriate qualifications to carry out their duties. Limits for testing are described under the referenced standards.

The data, data evaluation and equipment configuration represented herein are a true and accurate representation of the Equipment Under Test (EUT). The entity and/or person(s) for which this report has been prepared acknowledge that such the report - in its entirety - is for verification of the EUT to the requirements of FCC OET 65 & ANSI C95.1-1991.

The test results provided within this report are based upon the following global standards:

REFERENCE STANDARD	COMMENT
FCC OET Bulletin 65, Supplements A,B,C	N/A
ANSI/IEEE C95.1-1991	Uncontrolled Environment
ANSI/IEEE C95.3-1991	N/A
