27MHz Circuit Description

The 27.145MHz crystal oscillator drives the base of Q6 the final/buffer amplifier. The modulation provided by U1(TX2C). The output of Q6 has the matching network consisting of L3 and C22 that limit the harmonic content and effect the proper coupling of the antenna to the output stage.

Antenna, Ground and Power Source

The antenna consists of a 18cm long telescoping chrome over brass tubing. There is no external ground connection. The ground is only that of the printed circuit board. Electric current is supplied by a 9 Volt ("6F22" size battery x 1) primary battery
