Hi Alvin,

Q1. The sample is transmitter, product name is Stealth Ship (27MHz).

Q2. Antenna is two years

Q3. Please see attached file for the update test report.

Hi Alvin, would you help me check the LU9277880A & LU9276227 status. (My client is urgent to get the cert.)

Thanks

Best Regards

Alice

Hi Alice,

I have some comments about the above test report:

- 1) The description does not match the equipment.
- 2) Please check the calibration date on Asset EM194 Biconilog Antenna.
- 3) In the table on page 11/19, for the first two rows the limits should be 100uV/m.

I look forward to your response.

Thank you for using MET Laboratories TCB services.

Best Regards,

Alvin Ilarina
