RE: Socket Communications

FCC ID: LUBGPS-2

I have a few comments on this Application. Depending on your responses, kindly understand there may be additional comments.

- 1.) Kindly provide a Block Diagram for this device as required by 2.1033(b)(5). Please remember that FCC is usually concerned specifically with a block diagram of the RF module, including signal paths, oscillators, and associated frequencies. If needed, the Block Diagram can be included in the Confidentiality letter.
- 2.) Please provide a photograph of the underside of the radio module.

William H. Graff
President and Director of Engineering

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
