Application Cover Letter

We have assessed the following product for FCC and ISED compliance, please find enclosed supporting documentation.

Description of EUT:

The XC100 is a Wireless Power Transfer case for iPhones. The XC100 is used in retail, warehouse environments and combined with a barcode scanner and/or grip handle. The XC100 wirelessly charges the iPhone while charging the barcode scanner through a direct connection. When the XC100 is configured with the barcode scanner and/or grip handle, the combined product will have a separate marketing model name, please see details below. The XC100 will individually be labeled with the IDs and HVIN when combined with barcode scanner and/or pistol grip.

Model	Product Type
XC100	Wireless Power Transfer Case
XS930, XS940	XC100 + barcode scanner
XG930, XG940	XC100 + barcode scanner (with Grip)
