Subject: Changes to S7XX family of product with EH-MA41 from previous and differences inside the family with EH-MA41

Here are common elements and differences between S7XX scanner models with Class 2 BT module Ehong EH-MA41 compared to previous S7XX scanner models:

1. Printed Circuit Board Assembly (PCBA) and Hardware changes - Yes as required to include BT module Ehong MH-41 with FCC Grant#LUBMA41, PCB assembly changed to 7010-00373 from previous 7010-00364
2. Enclosure, software and any other changes – None

Similarity and differences between S7XX (S700, S730 & S740) family of product with EH-MA41

1. Uses same PCBA 7010-00373 for S7XX (S700, S730 & S740) family with EH-MA41
2. S700 uses MT780 scan engine, S730 uses SE 965 scan engine and S740 uses SE2707 scan engine
3. Enclosure, software and any other changes - None

Thank and Best Regards,

A handwritten signature in black ink that reads "Dev Bhattacharya". The signature is fluid and cursive, with a large initial "D" and "B".
