Reference: Certification:
 Applicant: Rosemount Inc
 Equipment: Wireless HART radio module
 Model #: RM2510
 FCC #: [LW2-RM2510](#)

Description of Changes

Dear Sir/Madam:

The request for change of the RM2510 radio module is in reference to a higher gain antenna. The current approval is approved for use with a 4.5dBi gain antenna and we are now asking for approval with an 8dBi antenna. No other changes to schematics, circuitry, conducted output power, software, or modulation has taken place.

Sincerely,

Principal Engineer
Rosemount Inc.
