Attention: Reviewing Engineer

Reference: Certification: **CFR 47 Part 15**
Applicant: Rosemount Inc.
Equipment: Smart Wireless Acoustic Transmitter
Model #: 708
FCC ID #: LW2RM708

Dear Sir/Madam:

We are applying for a class II permissive change under the FCC rules. The Rosemount Model 708 Wireless Acoustic Transmitter has had the following modifications since its original approval in 2010:

1. Modifications to the on circuit board antenna include changes to the traces to provide better impedance matching to the radio chip, and some changes to the antenna itself to provide a more uniform radiation pattern.
2. The DC power chip that supplied the DC power to the radio chip was changed to reduce noise and provide a more stable DC power source.

Should you have any questions, please feel free to contact the undersigned.

Sincerely,
Merritt Pulkrabek
