主旨: FW: Metrologic Instruments, Inc., FCC ID: LW5-MLPN5600A, Assessment NO.: AN07T7151, Notice#1

Hi Celine,

Please address the following issues.

Q#1: Please add section 15.19(a) statement to the label.

Ans: [Please see the revised label as the attachment.](#)

Q#2: Please revise the authorization letter. The format submitted is for IC and other certification. Please be noted that for FCC submission, the authorization letter shall address the requirement of Section 5301 of the Anti-Drug Abuse Act of 1988, 21 U.S.C. for FCC filing.

Ans: [Please see the revised POA as the attachment.](#)

Q#3: The module schematics seem not complete, please re-check and provide.

Ans: [Please see the revised module schematics as the attachment.](#)

Q#4: User manual page 5 indicated the maximum output power is 34mW (15.3dBm around) which doesn't agree with test report. Please clarify if it is referred to average output power.

FYI: It's suggested to indicate average output power on the test report also in order to prevent similar question arise during the review.

Ans: [Please see the revised page 5 of user manual as the attachment.](#)

Q#5: Page 3 of user manual indicated this human proximity to the antenna shall not be less than 20cm (8 inches) during normal operation which doesn't suit when operating in hand-held configuration. Please address.

Ans: [Please see the revised page 3 of user manual and page 52, 53 of test report as the attachment.](#)

Q#6: Page 4 of test report summarized the transmit output power in EIRP as 16.27dBm for b mode and 11.81dBm for g mode. Please explain how these values

2007/8/30

extracted.

Ans: [Please see the revised page 4 of test report as the attachment.](#)

Best Regards,

Lucy

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.
