Subj: Letter Regarding Other Radio Module
(2.4 GHz module.)

Application IDs: FCC LW9-CS46X, IC 2119B-CS46X

The operational description, block and schematic diagrams of the referenced applications include depictions of a 2.4 GHz radio module. This module is not part of the CS46X module in this application.

The 2.4 GHz radio module was present in the host system which served as a typical installation of the CS46X module.

The two radio modules are independent of one another and perform different functions for the host system.

The 2.4 GHz radio module is electrically unrelated to the CS46X module in the application.

The CS46X module operates only in the frequency range of 462.000 MHz to 469.000 MHz. Any reference to 2.4 GHz does not apply to the CS46X module in this application.
