Rich,

I verified that it is acceptable for the grant to reflect the conditions you noted. The receiver will only be used in the enclosure it was tested in. Please contact me if you need further information.

Layne,

I'm sorry. I'm trying to hurry because I've been up since 5:00 a.m. this morning and I'm getting very tired fast.

I meant to say that I called Jason Anderson (not that I typed up a request for additional information) on October 18, 2010 in the afternoon right after I finished reviewing the response from PTI.

I did not type up a request. I called Jason.

I did not get a return phone call from him yet.

An email answering item 1 on my request dated October 15, 2010 is acceptable.

I'm going to bed now.

Layne,

I forgot to mention that I'm in TCBC training for the next few days during the daytime.

I'll be working at nights. If you wish to speak with me, call my cell phone number (443-367-6208) and leave a message. I'll get back to you just as soon as I can. We get breaks from the training during the day.

Layne,

My apologies, I typed up a request for additional information on October 18th in the afternoon right after I finished reviewing the response from PTI.

Unfortunately, the response did not address item 1 of my request for additional information dated October 15, 2010 (copy attached).

Specifically, Is the grant condition okay with the applicant or are you going to retest the module without an enclosure. And email response is acceptable.

Once that item is answered, I can proceed with the grants.

Layne, please provide me with your phone number so I can call you instead of Jason. I believe Jason is the person in charge at PTI and the person in charge is always too busy to respond to questions immediately.

Thanks,

Rich Fabina

Hi Rich,

Just wondering if you could provide a status on this application.

Regards,
Layne
