Columbia, MD 21046

Re: Request for Confidentiality

Gentlemen:

In reference to the application under FCC ID **LXC-AR5BAP-00048** and pursuant to Sections 0.457(d)(1)(ii) and 0.459 of the Commission's Rules, the Applicant hereby requests confidential treatment of the accompanying information as outlined below:

Schematics

Block Diagrams and Antenna specification

Theory of Operation and User's Guide

These documents contain detailed system and equipment description and related information about the product that DENSO INTERNATIONAL AMERICA, Inc., considers proprietary, confidential, and a custom design and, otherwise, would not release to the public. Since this product is based on a unit designed by Atheros Communications, Inc., from which future technological products will evolve, DENSO INTERNATIONAL AMERICA, Inc., considers that this information would be of benefit to its and Atheros' competitors, and that disclosure of the information in these documents would give competitors an unfair advantage in the market.

Sincerely,

Roger Berg  
Vice President  
DENSO INTERNATIONAL AMERICA, Inc.
