SUBJECT: DENSO INTERNATIONAL AMERICA, INC.
FCC ID: LXC-E330
FCC E911 Requirements Per 22.921

Gentlemen:

DENSO International America, Inc. hereby certifies that the analog cellular telephone (FCC ID: LXC-E330), using the Automatic A/B Roaming-Intelligent Retry method, Adequate/Strongest Signal method, and Selective Retry method, meets the E911 requirements specified in Section 22.921 of the FCC Rules. These procedures recognize when a "9-1-1" call is made and, at such time, will override any programming in the mobile unit that determines the handling of a non-911 call and permit the call to be handled by other analog carriers.

Should you have any questions or comments concerning the above, please contact the undersigned.

Sincerely,

Susan Graham for
