SUBJECT: DENSO INTERNATIONAL AMERICA, INC.

FCC ID: LXC-E330

FCC E911 Requirements Per 22.921

Gentlemen:

DENSO International America, Inc. hereby certifies that the analog cellular telephone (FCC ID: LXC-E330), using the Automatic A/B Roaming-Intelligent Retry method, Adequate/Strongest Signal method, and Selective Retry method, meets the E911 requirements specified in Section 22.921 of the FCC Rules. These procedures recognize when a "9-1-1" call is made and, at such time, will override any programming in the mobile unit that determines the handling of a non-911 call and permit the call to be handled by other analog carriers.

Should you have any questions or comments concerning the above, please contact the undersigned.
