Re: Certification for Continental Automotive A3C108397 Series  
IC: 7812A-A3C108397

If necessary, we have enclosed application materials for certification of Continental Automotive A3C108397 Series. It has been verified to comply with ISED RSS-210v10/GENv5.

**Current Variants:**

There are eight (13) minor variants of the EUT. All variants employ identical PCBs and circuitry, but their housings vary based on vehicle logo and the number of buttons populated in the housing. Two worst case variants were determined in pretesting, those being the 5-BTN chrome button variant (HVIN: A3C108397) and the 2-BTN plastic button variant (HVIN: A3C108399).

If there are any questions regarding the application or testing performed, please contact us at the above address or call (734) 252-9785, or e-mail info@wrtest.com.

Sincerely,  
  
Joseph D. Brunett
