

Modes of Operation:

Variant 3 315MHz	Consumer Use Mode	Service Mode	Mode of Operation	Explanation	Frequency of transmission
	X		Park Mode (Periodic)	All of the time other than other modes	9 Words every 512 seconds
	X	X	Park Mode + Delta Pressure	When a Delta pressure positive is detected	Up to 32 words in less than 5 seconds
	X		Drive Mode	TPM Sensor in normal operation when vehicle motion is detected	9 words every 17 seconds
		X	Learn Mode	TPM sensor transmits up to 64 words after LF tool activation	Up to 64 words in less than 5 seconds

Notes:

- 1.-The Learn mode is used only to learn the identifier of the TPM sensor in the vehicle TPM System. This mode will only be used at tire dealers/service centers only.
2. - The power level for all transmissions is the same.
