Dear Sir:

Our wireless product (Product name: IEEE 802.11b/g/n Wireless Media Adapter, Model number: VUS-100, VUS-100SI, VUS-100P, VUS-100V) is based on country's requirement of customer to setup wireless channel. For different country, we have different country code to setup. The country code is fixed and user can't change it. For example, the user in American can only use channel 1 to channel 11.

Best regards.
