Dear Sir,

List of Differences for FCC ID: M6YPD141818

No.	Type	Location	Changes in Device	Qty.	Note
1	Switch	SW101	The switches are relocated from upper layer of the PCB to its lower layer	1	
2	Switch	SW2		1	
3	Switch	SW3		1	

After making above changes on the device, we tested new version of the device under Part 15.235 on August 25~30, 2010.

Therefore, we would submit New Internal Photos of the device and new test report subject to Class II Permissive Change application.

Sincerely,

Graco Children's products Inc
