RE: M72129702593 Permissive Change

To Whom It May Concern:

The intent of the permissive change M72129702593 is to increase the output power by 6 dB. This was achieved by decreasing the output power of U2 and adding amplifier U3, on RF2304 device.

Polycom, Inc.
Grantee Code M72

Sincerely,

A handwritten signature in black ink, appearing to read "Gilbert Pearson", written over a large, light-colored scribble.

Gilbert Pearson
Vice President Engineering
Audioconferencing Division
