“When Performance Counts... Philips Authentic Accessories are Designed to Maximize the Performance of Your Philips Phone.”

To maximize the performance of your phone and maintain manufacturer warranty, always purchase Philips Authentic Accessories designed for use with your phone. Philips Consumer Communications cannot be held liable for any damage due to use with non authorized accessories.

Ask for Philips Authentic Accessories where you purchased your Philips Phone.

Philips Standard Battery (Included)

Part # 431125875310 (Black)

Part # 431125874390 (Blue)

670 mAh

A lightweight NiMH power-pack is included with your phone and is compatible with the Philips Belt Clip Holster. Additional batteries are sold separately.

Talk Time

- Digital - In digital mode the Philips Standard Battery has up to 168 minutes of talk time.*
- Analog - In analog mode the Philips Standard Battery has up to 78 minutes of talk time.*

Standby

- Digital - In digital mode the Philips Standard Battery has up to 150 hours of standby time.
- Analog - In analog mode the Philips Standard Battery has up to 47 hours of standby time.

* Actual talk time and standby time may vary depending upon network configuration.

This device has been tested for body-worn RF exposure compliance using Philips belt-clip/holster accessory. This device complies with FCC Radio Frequency exposure requirements for body-worn operating configurations when used with the Philips belt-clip holster accessory. Other belt-clips, holsters, and similar accessories that have not been tested for body-worn exposure conditions may not comply with FCC RF exposure requirements and should not be used.

Philips Extended Battery (Sold Separately)

Part # 431125875240 (Black)

Part # 431125875390 (Blue)

1000 mAh

A sleek, extended life NiMH power-pack may be purchased for use with your phone and is compatible with the Philips Belt Clip Holster.

Talk Time

- Digital - When in digital mode the Philips Extended Battery has up to 250 minutes of talk time*.
- Analog - When in analog mode the Philips Extended Battery has up to 120 minutes of talk time*.

Standby

Digital - When in digital mode the Philips Extended Battery has up to 225 hours of standby time*.

Analog - When in Analog mode the Philips Extended Battery has up to 71 hours of standby time*.

* Actual talk time and standby time may vary depending upon network configuration.

This device has been tested for body-worn RF exposure compliance using Philips belt-clip/holster accessory. This device complies with FCC Radio Frequency exposure requirements for body-worn operating configurations when used with the Philips belt-clip holster accessory. Other belt-clips, holsters, and similar accessories that have not been tested for body-worn exposure conditions may not comply with FCC RF exposure requirements and should not be used.

Philip Standard Charger

Part # 431125874390

A lightweight and durable AC charger is included with your phone and can be used with all battery options. To use the Philips Standard Charger, plug it into a wall outlet and connect the lead from the charger to the base of your phone.

The standard charger will charge a standard battery in less than 4 hours (in most cases) and an extended battery in less than 5 (in most cases).

Philips Fast Charger

Part # 312242721210

The Philips Fast Charger supplies a powerful charge in less than 2 hours (in most cases). This lightweight and durable AC charger can be used with all battery options. To use the Philips Fast Charger, plug it into a wall outlet and connect the lead from the charger to the base of your phone.

Cigarette Lighter Adapter

Part # 431125874800

12-24 Volts

Charge the phone battery from your vehicle battery using the Cigarette Lighter Adapter. A green light indicates the charger is ready for charging (when not charging) or finished charging (if it has been charging).

Avoid prolonged charging when the car engine is not running; this may cause the battery of your car to drain. Note also that in some cars the cigarette lighter plug is not provided with electricity if the ignition is not switched on.

Philips Basic Headset

Part # 431125875140

The Philips Basic Headset provides a flexible and hands-free option for phone use.

Philips Deluxe Headset

Part # 4331125872220

The Philips Deluxe Headset offers the same features as the basic headset plus an in-line answer button as an alternative to keypad answering.

Philips Compact Car Kit

Part # 431125874460

The Philips Compact Car Kit allows easy hands free phone use while driving. This kit offers high quality mobile sounds and charges the phone battery while in use.

Philips Belt Clip Holster Carry Case

Part # 433530630010

The Philips Belt Clip Holster Carry Case protects your phone from dust, nicks and scratches. Designed in leather with durable elastic sides this case supports the phone while using the Philips Standard and Extended Batteries.

This device complies with FCC Radio Frequency exposure requirements for body-worn operating configurations. Other belt-clips, holsters, and similar accessories that have not been tested for body-worn exposure conditions may not comply with FCC RF exposure requirements and should not be used.
