Re: Philips Consumer Communications

Request for withholding from public disclosure proprietary information submitted pursuant to
An application for certification of Ozeo Dual Band TDMA Mobile Phone.

FCC ID: M7VTCD588

Intertek Testing Services "ITS" is currently performing tests on the OZEO cellular telephone of Philips Consumer Communications, a division of Philips Electronics North America Corporation ("Philips") in order for Philips to obtain the required Federal Communications Commission ("FCC") approvals. In this context, Philips and ITS will be providing the FCC with certain information and documents relating to the OZEO telephone.

Based on the sensitive nature of this information, and in particular of the block diagrams and circuit diagrams (collectively "the Diagrams"), the FCC agrees to regard and to preserve as confidential and proprietary to Philips all information, written, oral or computer-based, related to the Diagrams, to which the FCC has access during the approval process. The Diagrams will not be disclosed to anyone outside Philips or ITS without Philips' prior written approval, and will be used by the FCC solely to perform the tests referred to herein.

If the above correctly represents your understanding, please sign below and return one executed copy to me at 408-617-5951.

Sincerely,

Robert J. Murray
VP of Engineering
