

Theory Description:

- Supply block:supply electricity power to system.
- LCD display &backlight:Its control by MCU.
Its show system information.
- LED display:Display room partical status.
partical sensor pass information to MCU
Then MCU pass to led.
- MCU:Control system operation.
- Photo sensor:Sense room brightness.
Control backlight on/off.
- Partical sensor:Sense room partical status.
And pass to MCU.
- RF transmitter:transmitte this unit control system
to receiver.Transmit code control by MCU.
