Subject: PD9WM3B2200BG

Gentlemen:

Please be advised that the Intel Corporation FCC ID: PD9WM3B2200BG, PRO/Wireless 2200BG Network Connection Model WM3B2200BG is manufactured for the global market but when labeled for marketing in North America (FCC ID: PD9WM3B2200BG) the Intel PRO/Wireless 2200BG Network Connection, Model WM3B2200BG EEPROM will be flashed at the factory with information that will only allow it to operate on these specific channels:

Channels 1 – 11, 2412 – 2462MHz 802.11b mode
Channels 1 – 11, 2412 – 2462MHz 802.11g mode

The end user will not be given the capability to alter this information flashed into the EEPROM.

If you have any questions, please do not to hesitate to contact us at +886 2 2544 7706

Sincerely,

Robert Li
