Model: V100
FCC ID: MAU021

Dear Sir,

We would like to declare that our product **Notebook Personal Computer (with Intel Wireless LAN Module:WM3945ABG)**, Model: **V100**, FCC ID: **MAU021** was a device which without radar detection. The uniform spreading mechanism was follow the master device (ex. access point) after radar waveform is detected .

Thanks for your help and do not hesitate to contact us if you have any further questions.
