December 7, 2007

RE: SCM Microsystems Inc.

FCC ID: MBPSCR331-DI21B

I have a few comments on this Application. Please answer these questions and return as a response letter. Depending on the answers there may be more questions.

1. Users/OEM Manual must have Pt. 15.21 statement.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

[Uploaded revised User's Manual to add 15.21 statement](#)

2. The Cover letters are signed by Emilian Elefteratos. The Point of Contact registered with the FCC is Calaimany Bhoopathi. Please upload a letter from Calaimany Bhoopathi stating that Emilian Elefteratos has authority to act for and in behalf of Calaimany Bhoopathi.

[Uploaded a new authorization letter from Calai Bhoopathi](#)

3. Please submit a modular approval letter, with all questions answered, to the correspondence exhibit.

[Uploaded Modular Approval Letter](#)

4. Internal photos must show the module with all shields removed. Please revise internal photos and submit to internal photos exhibit.

[Uploaded revised Internal Photos Exhibit showing PCB with shields removed](#)

5. The operational description file has confidential watermark yet it is not included in the confidentiality letter. Please include this in a revised confidentiality letter or remove the watermark from the file and upload to operational description exhibit.

[Uploaded revised Confidentiality Request](#)

6. No label information supporting "Contain FCC ID: XXXXXX" as stated in the modular approval letter. Please revise user/oem manual to include this statement and upload to the user manual exhibit.

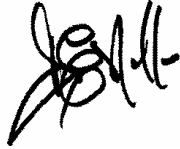

[Uploaded revised User's Manual explaining: "Contains FCC ID..." issue](#)

7. Will this be sold as a module that goes inside a host or with this be a stand alone module in its own housing or both? Please explain.

[This device will be marketed as a module that goes inside a host, as well as a standalone product](#)

8. For Industry Canada a RSP-100 form must be completed and uploaded to the application forms exhibit before review can continue.

[The IC RSP-100 is pending some info from SCM](#)

A handwritten signature in black ink, appearing to read 'D. Noble', with a stylized flourish at the end.

Douglas E. Noble  
Examining Engineer

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
