Declaration of Similarities and Differences Letter

Applicant	Identiv Inc.
Base Model Name	uTrust 5501 F HF+LF
Derivative Model Names	uTrust 5501 F HF+LF DTC

The base model is “uTrust 5501 F HF+LF”. Other derivatives use the same PCB as the base model with different population options. All models and the changes/deviations of each derivative from base model are listed in the table below:

Model	Derivative/Change from base model
uTrust 5501 F HF+LF	Base Model. Includes support to read both HF and LF cards, includes SAM, uses horizontal host connector, has LED and buzzer.
uTrust 5501 HF+LF DTC	This is the same as the base model. The interface connectors mate horizontal (to PCBA) on the base model, while they mate vertical (to PCBA) on this variation. Does not include LED or buzzer.

Model Name:	FCC ID	IC ID
uTrust 5501 F HF+LF	MBPUT5501F-01	7485A-5501F01
uTrust 5501 F HF+LF DTC	MBPUT5501F-01	7485A-5501F01

Sincerely,

Calaimany Bhoopathi
