Subject Re: FCC Equipment Authorization System 

Dear Cherry,

Thanks for your letter!
Please see below blue words for the reply.

Re: FCC ID: MCLCS-E340W
Applicant: HON HAI Precision Ind. Co., Ltd.
Correspondence Reference Number: 45366
Form 731 Confirmation Number: EA501899
Date of Original E-mail: 02/19/2014

The initial administrative review of this application fling shows that the required imposed application processing fee has been verified as paid. The request for confidentiality of internal photos and the user's manual require further justification which is in the form of a Non-Disclosure Agreement for both internal photos and the user manual for permanent confidentiality request? Please review FCC Publication No. 726920 dated 12/3/2012. You have provided the following statement to the further justification has not been provided for administrative review. You state the following and as quoted: "2 - The asterisked items (*) require further justification before permanent confidentiality will be allowed. These also currently require review by the FCC under their Permit-But-Ask policy before the grant is issued and can delay completion of an application. Further justification should be added to the note above. One such example for a potted device would be: "The EUT is FULLY potted using a non-removable epoxy based material. Removal of potting material causes irreparable damage to internal circuitry. See photographs exhibits that outline the device before and after potting." 3 - Must be signed by applicant contact given for applicant on the FCC site, or by the authorized agent if an appropriate." Let me further emphasize, this requirement is in the form of a Non-Disclosure Agreement. Review FCC Publication No. 726920 dated 12/3/2012, posted on the World Wide Web.

REPLY:

Please see the new submitted re-signed Non-Disclosure Agreement named as "FCC Request for Confidential letter-Ver1.pdf".
