Dear Gina,

The review of this application is complete. Please reply to the following item. If you have questions, please ask.

Q1: Please revise the test report to include AC line conducted emissions measurements. Item 5 of the modular guidance states that the module must comply with the conducted emissions limits unless it is powered only by a battery. Please use earlier CCS report 61003002-RP1 for additional reference.

Best regards,

Tim Dwyer  
CCS Technical Reviewer

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.
