RE: AMBIT Microsystems Corporation

FCC ID: MCLT60H65600

After a review of the submitted information, I have a few comments on the above referenced Application.

- 1) Please confirm that the output power of this device is within +/- 0.5 dB of the original application.
- 2) Typically ADT has provided restricted band bandedge measurements in a separate section of the report. However the data in section 4.2 appears to include measurements in the restricted bands. Please confirm that these measurements are the bandedge restricted band measurements, or alternatively please provide additional data as has been done in the past.

Timothy R. Johnson
Examining Engineer

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
