Federal Communications Commission 7435 Oakland Mills Road Columbia, Maryland, 21046

Dear Sir/Madam,

This application is for a DTS: 802.11b which with the 802.11a (UNII) consists a combo module composite device. However, I made a mistake in the equipment specifications of form 731. Could you please replace all the specifications there with the following one?

Frequency range: 2412MHz - 2483.5MHz Rated RF power output in watts: 46.8 Emission Designator: 18M6G1D

Microprocessor model number: AR5211

Please let me know, if you have any questions. Thank you very much for your help!

Best Regards,

Jennifer Song BACL, Documentation Personnel Tel: 408-732-9162 * 39
