Overall Assessment Letter for Digi Connect Wi-SP

The Digi Connect Wi-SP is a Serial to 802.11b device intended to connect to computers

I have reviewed the application and found it to be compliant. The following has been noted during the evaluation.

1: Test Report

The Test report does not list the FCC id. However the product details are consistent with the remainder of the application.

2: Covering Letters

The application was originally addressed to the TUV AM TCB but this has been redirected to BABT TCB. Following communication from TUV AM BABT have agreed to construe all references to the TCB functions of TÜV America Inc as references to the TCB functions of BABT.

3: Confidentiality

The client requested confidentiality in a letter. They have subsequently confirmed they wish to request standard/permanent confidentiality.

Yours sincerely

Hilton Carr
Task Manager, Certification and Technical Development
